### **BACKGROUND**

The present invention is related to a method and means for an overflow assembly for bathtubs.

### **ACTUAL INFRINGEMENT**

Applicant is currently aware of an overflow assembly on the market that is believed to constitute a direct infringement of the subject application.

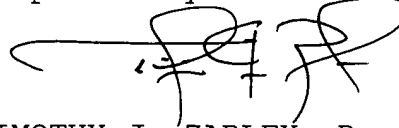

The undersigned, the Petitioner for the Applicant in this case, has made a careful comparison of the infringing assembly with the claims of the application. In the undersigned's opinion, one or more of the claims of the subject patent application is unquestionably infringed.

### **PRIOR ART**

A careful and thorough search of the prior art has been made, and the Applicant has a good knowledge of the pertinent prior art because of its long term involvement with overflow assemblies. All such material prior art has been provided to the Examiner as evidenced by the Information Disclosure Statement mailed on January 7, 2004. It is believed that the claims of the invention are allowable over the known prior art.

The grant of this Petition and the award of "special" status for this application is respectfully requested.

Respectfully submitted,
